

The Honorable Jocelyn G. Boyd  
Chief Clerk/Administrator  
Public Service Commission of South Carolina  
101 Executive Center Drive, Suite 100  
Columbia SC 29210

286144

July 17, 2019

Dear Ms. Boyd,

I am writing in response to Duke Energy Progress LLC's  
Motion to Dismiss (docket #

2019-190-E). In the last paragraph on page three, Duke  
Energy states that I can waive the

fees of keeping my current meter if I have a notarized  
statement from a South Carolina

licensed physician. I am forwarding the letter from mine and  
my husbands physician and also

our Chiropractor. My husbands mother died from ovarian  
cancer at the age of 36. His

sister died from breast cancer at the age of 42. He also  
had another sister that died in

her fifties from cancer and a brother that died of cancer.  
I have included the docket

number at the top of their letters.

Sincerely,

*Melinda McKissick*

To Whom It May Concern:

This letter is to request Mr. Mike McKissick and Ms. Melinda McKissick to opt out of having a smart meter installed at their home on [redacted] in Sumter, SC. In 2011 the IARC part of the World Health Organization classified RF radiation as possibly carcinogenic. There are multiple studies dating back to the 1960's that link RF radiation to cancer. Mr. McKissick has had many directly related relatives that have been diagnosed with cancer. There is a hereditary risk of him being exposed to RF radiation. It is my professional opinion that Mr. McKissick should avoid exposure to radio frequency emissions to protect his health.

Sincerely,

Jason Harkey, DC

TO: Duke Energy

I would like to have Melinda and David McKissick's home waived for a Smart Meter. They have a significant fear about having this in their home. I think the unknown about cancer and the strong family history of cancer would make it reasonable to waive that fee.

Sincerely,

  
E. MacDonald DuBose, M. D.
